

Patient Flow Diagram

New Patient Phone Interview

Which type of initial exam is appropriate?

Patient has an urgent problem and wishes us to focus on that problem only

Patient:
(i) has been regular with a dentist,
(ii) has had an exam in last 12 months,
(iii) has no known dental concerns,
and (iv) wants only a "check-up" exam

PFE Interview (non-clinical environment)

NP POE Interview (non-clinical environment)

Wouldn't this be a good time to do a more complete exam?

Wouldn't this be a good time to do a more complete exam?

All other patients

PFE Workup and Diagnostic Materials

What should be done to relieve and stabilize this condition quickly and inexpensively, today?

Relief Care

Post Relief Interview
